

## УРОК 28

Тема уроку. Розв'язуємо задачі із зайвими числовими даними

Картка 1

$$\begin{array}{c} 9 + 6 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 11 - 8 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 8 + 4 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 14 - 8 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 9 + 7 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 12 - 8 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

Картка 2

$$\begin{array}{c} 9 + 4 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 12 - 9 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 7 + 5 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 8 + 3 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 11 - 7 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 6 + 6 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

Картка 3

$$\begin{array}{c} 12 - 4 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 9 + 9 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 13 - 7 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 8 + 8 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 15 - 6 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 7 + 7 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

Картка 4

$$\begin{array}{c} 8 + 5 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 12 - 6 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 7 + 6 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 11 - 3 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 9 + 2 = \square\square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$

$$\begin{array}{c} 13 - 9 = \square \\ \swarrow \quad \searrow \\ \square + \square \end{array}$$
